

# Weitz Partners III Opportunity Fund

#1 in Long-Short Equity Overall Score 4.1 / 10

## About WPOPX

The investment seeks capital appreciation. The fund is a “multi-cap” fund and may invest in securities of any market capitalization. It invests in long positions in stocks and other securities, when the managers anticipate that the value of such securities will increase. The fund also invests in short positions in stocks and other securities, including short sales of exchange traded funds, when the managers anticipate a decline in the value of such securities.
