By Mail:

Weitz Funds
P.O. Box 182785
Columbus, Ohio 42318-2785

By Certified or Overnight Delivery:

Weitz Funds
c/o FIS Investor Services LLC
4249 Easton Way, Suite 400
Columbus, Ohio 42319

Other Changes

The toll-free telephone number to contact the Funds has been changed to (888) 859-0968.

VALUE FUND

WVAIX / WVALX

Summary Prospectus

July 31, 2020

Before you invest, you may want to review the Fund's Prospectus, which contains more information about the Fund and its risks. The Fund's Prospectus and Statement of Additional Information, both dated July 31, 2020 and as currently filed with the U.S. Securities and Exchange Commission, are incorporated by reference into this Summary Prospectus. You can find the Fund's Prospectus and other information about the Fund online at <https://weitzinvestments.com/resources/product-literature/default.fs>. You can also get this information at no cost by calling 800-304-9745 or by sending an e-mail request to clientservices@weitzinvestments.com.

Beginning January 1, 2021, paper copies of the Funds' shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Funds or from your financial intermediary (such as a financial adviser). Instead, the reports will be made available on the Funds' website <https://weitzinvestments.com/resources/product-literature/default.fs>, and you will be notified by mail each time a report is posted and the mailing will provide a website link to access the report. You will continue to receive other Fund regulatory documents (such as prospectuses or supplements) in paper unless you have elected to receive all Fund documents electronically as described below.

If you would like to continue to receive the Funds' future shareholder reports in paper free of charge after January 1, 2021, you can make that request (1) by contacting your financial intermediary, if you invest through a financial intermediary; or (2) if you invest directly with the Funds, by calling 800-304-9745.

If you already receive shareholder reports and other Fund documents electronically, you will not be affected by this change and you need not take any action. If you do not receive shareholder reports and other Fund documents electronically but would like to do so, contact your financial intermediary or, if you invest directly with the Funds, call 800-304-9745. An election to receive shareholder reports in paper will apply to all Funds held with the Weitz Funds and may apply to all funds held with your financial intermediary.

Investment Objective

The investment objective of the Fund is capital appreciation.

Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund.

SHAREHOLDER FEES (fees paid directly from your investment)		
	Institutional Class	Investor Class
Maximum sales charge (load) on purchase	None	None
Maximum deferred sales charge (load)	None	None
Redemption fee	None	None

ANNUAL FUND OPERATING EXPENSES (expenses that you pay each year as a percentage of the value of your investment)		
	Institutional Class	Investor Class
Management fees ⁽¹⁾	0.75%	0.75%
Distribution (12b-1) fees	None	None
Other expenses	0.19%	0.33% ⁽²⁾
Total annual fund operating expenses⁽³⁾	0.94%	1.08%
Fee waiver and/or expense reimbursement ⁽⁴⁾	(0.05)%	—
Total annual fund operating expenses after fee waiver and/or expense reimbursement	0.89%	1.08%

⁽¹⁾ Restated to reflect current management fees. Effective July 31, 2020, the management fees were reduced.

⁽²⁾ Restated to reflect current expenses. Effective July 31, 2020, the Fund's administrative services fees were revised.

⁽³⁾ Restated to reflect current fees and expenses.

⁽⁴⁾ The investment adviser has agreed in writing to waive its fees and reimburse certain expenses (excluding taxes, interest, brokerage costs, acquired fund fees and expenses and extraordinary expenses) to limit the total annual fund operating expenses for Institutional Class shares and Investor Class shares to 0.89% and 1.09%, respectively, of each Class's average daily net assets through July 31, 2021. This agreement may only be terminated by the Board of Trustees of the Fund.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the periods indicated and then redeem in full at the end of each of the periods indicated. The example also assumes that your investment has a 5% return each year and the Fund's operating expenses remain the same each year. The example reflects the contractual fee waiver and/or expense reimbursement arrangement, if applicable, for the current duration of the arrangement only.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
Institutional Class	\$91	\$295	\$515	\$1,150
Investor Class	\$110	\$343	\$595	\$1,317

Portfolio Turnover

The Fund pays transactions costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 16% of the average value of the portfolio.

Principal Investment Strategies

The Fund's investment strategy (which we call “value investing”) is based on our belief that stock prices fluctuate around the true value of a company. The Fund invests the majority of its assets in common stock of larger companies. The Fund considers larger-cap companies to be issuers with a market capitalization equal to or greater than the median capitalization of companies in the Russell 1000 Index at the time of purchase. As of June 30, 2020, the median capitalization of companies in the Russell 1000 Index was \$10.128 billion. The Fund may invest in securities issued by non-U.S. companies, which securities may be denominated in U.S. dollars or foreign currencies. As part of the Fund's strategy, the Fund may concentrate its investments in securities of relatively few issuers.

We seek to identify the securities of growing, well-managed businesses which have honest, competent management. We then estimate the price that an informed, rational buyer would pay for 100% of the business (i.e., the private market value). At the heart of the process is an estimate of the value today of the right to receive all of the cash that a business will generate for its owners in the future. The valuation may focus on asset values, earnings power and the intangible value of a company's “franchise” in its market or a combination of these variables, depending on the nature of the business.

The Fund then tries to buy shares of the company's stock at a significant discount to this “private market value.” We invest with a multiple-year time horizon. The Fund anticipates that the stock price will rise as the value of the business grows and as the valuation discount narrows. Ideally the business value grows and the stock continues to trade at a discount for long periods of time. We generally will sell these stocks as they approach or exceed our estimate of private market value.

We do not try to “time” the market. However, if there is cash available for investment and there are not securities that meet the Fund's investment criteria, the Fund may invest without limitation in high-quality cash and cash equivalents such as U.S. Government securities or government money market fund shares. In the event that the Fund takes such a temporary defensive position, it may not be able to achieve its investment objective during this temporary period.

Principal Investment Risks

You should be aware that an investment in the Fund involves certain risks, including, among others, the following:

- **Market Risk** As with any mutual fund, investment return and principal value will fluctuate, depending on general market conditions and other factors. Market risk includes political, regulatory, economic, social and health risks (including the risks presented by the spread of infectious diseases such as the COVID-19 pandemic) which can lead to increased market volatility and negative impacts on local and global financial markets, and the duration and severity of the impact of these risks on markets cannot be reasonably estimated. **You may lose money if you invest in the Fund.**
- **Active Management Risk** The investment adviser's judgment about the attractiveness, value or potential appreciation of the Fund's investments may prove to be incorrect. The Fund could underperform other funds with similar objectives or investment strategies, if the Fund's overall investment selections or strategies fail to produce the intended results.
- **Value Investing Risk** Value investors seek to invest in companies whose stock prices are low in relation to their estimated worth or future prospects. Undervalued securities are, by definition, out of favor with investors, and there is no way to predict when, if ever, the securities may return to favor. **Therefore, investors should purchase shares of the Fund only if they intend to be patient, long-term investors.**
- **Large Company Risk** Securities of large companies tend to have less overall volatility compared to those of mid-size and small companies; however, large companies may not be able to attain the high growth rates of successful mid-size or small companies. In addition, large companies may be less capable of responding to competitive challenges and disruptive changes.

- **Concentration Risk** The risk that the Fund’s performance may be hurt disproportionately by the poor performance of relatively few stocks. The Fund tends to invest a high percentage of assets in its largest holdings.
- **Non-U.S. Securities Risk** The Fund may invest in securities issued by non-U.S. issuers, which securities may be denominated in U.S. dollars or foreign currencies. Investments in non-U.S. securities may involve additional risks including exchange rate fluctuation, political or economic instability, the imposition of exchange controls, expropriation, limited disclosure and illiquid markets.
- **Failure to Meet Investment Objective** There can be no assurance that the Fund will meet its investment objective.

Your investment in the Fund is not a bank deposit and is not insured nor guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other governmental agency.

Performance

The following chart and table provide an indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year over the period indicated and by showing how the Fund’s average annual total returns for the periods indicated, both before and after taxes, compared to those of relevant broad-based securities market indices. The Standard & Poor’s 500 Index, the Fund’s primary comparative index, is generally representative of the market for the stocks of large-size U.S. companies. The Russell 1000 Index measures the performance of the large-cap segment of the U.S. equity market. All Fund performance numbers are calculated after deducting fees and expenses, and all numbers assume reinvestment of dividends. Total returns shown include fee waivers and expense reimbursements, if any; total returns would have been lower had there been no waivers and/or reimbursements. The Fund’s past performance is not necessarily an indication of how the Fund will perform in the future both before and after taxes. Updated performance information is available at weitzinvestments.com or by calling us toll-free at 800-304-9745.

Calendar Year Total Returns – Investor Class

The year-to-date return for the Fund’s Investor Class for the six months ended June 30, 2020 was -3.50%.

BEST AND WORST PERFORMING QUARTERS (during the period shown above)		
	Quarter/Year	Total Return
Best quarter	1st Quarter 2019	15.32%
Worst quarter	4th Quarter 2018	-12.62%

AVERAGE ANNUAL TOTAL RETURNS (for periods ended December 31, 2019)			
	1 Year	5 Year	10 Year
Investor Class			
Return before taxes	34.13%	7.70%	11.66%
Return after taxes on distributions	32.60%	6.02%	10.56%
Return after taxes on distributions and sale of fund shares	21.19%	5.74%	9.49%
Institutional Class return before taxes ⁽¹⁾	34.49%	7.94%	11.79%
Comparative Indices (reflect no deduction for fees, expenses or taxes):			
Standard & Poor's 500 Index	31.49%	11.70%	13.56%
Russell 1000 Index	31.43%	11.48%	13.54%

⁽¹⁾ Institutional Class shares first became available for sale on July 31, 2014. For performance prior to that date, this table includes the actual performance of the Fund's Investor Class (and uses the actual expenses of the Fund's Investor Class, for such period of time), without any adjustments. For any such period of time, the performance of the Fund's Institutional Class would have been substantially similar to, and higher than, the performance of the Fund's Investor Class, because the shares of both classes are invested in the same portfolio of securities, but Institutional Class shares would have had lower expenses.

After-tax returns are calculated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. In some instances, the return after taxes may be greater than the return before taxes because you are assumed to be able to use the capital loss on the sale of Fund shares to offset other taxable gains. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as a 401(k) account or individual retirement account (IRA).

Fund Management

Investment Adviser

Weitz Investment Management, Inc. ("Weitz Inc.") is the investment adviser for the Fund.

Portfolio Manager

Bradley P. Hinton, CFA is responsible for the day-to-day management of the Fund. Mr. Hinton became a portfolio manager of the Fund in 2006.

Purchase and Sale of Fund Shares

For Investor Class shares, the minimum investment required to open an account in the Fund is \$2,500. The subsequent minimum investment requirement is \$25.

For Institutional Class shares, the minimum investment required to open an account in the Fund is \$1,000,000. The subsequent minimum investment requirement is \$25.

Investors may purchase, redeem or exchange Fund shares by written request, telephone, online, or through a financial intermediary on any day the New York Stock Exchange is open for business. You may conduct transactions by mail (Weitz Funds, c/o DST Asset Manager Solutions, Inc., 330 W 9th Street, 1st Floor, Kansas City, MO 64105), by telephone at 800-304-9745, or online at weitzinvestments.com. Purchases and redemptions by telephone are only permitted if you previously established this option on your account.

Tax Information

The Fund's distributions may be taxable to you as ordinary income and/or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. Such tax-deferred arrangements may be taxed upon withdrawals made from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a financial adviser), the Fund and/or its investment adviser may pay the intermediary an administrative fee to compensate them for the services they provide (commonly referred to as administrative fee payments). These payments may create a conflict of interest by influencing the financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
